

**Are these pairs of events
dependent or independent?**

- 1) Tossing a coin and selecting
a card from a deck**

- 2) Driving on ice and having an
accident**

- 3) Drawing a ball from a box,
not replacing it, and then
drawing a second ball**

- 4) Having a high I.Q. and
having a large hat size**

- 5) Tossing one coin and then
tossing a second coin**
